

# Reregistering Your Short-Term Rental Property

## Is your Short-Term Rental Registration going to expire soon?

Per Kansas City Missouri Code of Ordinances Chapter 56 Article VIII Sec. 56-803(6), a valid, unexpired short-term rental registration is required to legally operate a short-term rental property within the City of Kansas City, Missouri. Each registration issued shall expire at the end of its registration period (1-year) and shall be subject to reregistration annually. Reregistration will be accepted beginning 30 days before the end of the previous registration period. Visit the Short-Term Rental Website at <https://www.kcmo.gov/programs-initiatives/str> for more information.

## How to Reregister Your Short-Term Rental

You would fill out a new application to reregister your short-term rental application. It would be a similar application to your initial short-term rental registration and the fees will not be issued until the new application is ready to be approved. We will need to schedule another inspection and the affidavits, Tax Clearance Letter and utility bills (if applicable) should be dated within 30 days of the application date. Once your application has been processed and the inspection has successfully passed, we will issue you the \$200 annual registration fee. You will receive your new short-term rental registration via email on the date after the fee is paid.

## Compass KC

Applications will be reviewed in the order we have received them. Please ensure you have attached all required documents. All documents must be complete, factual and meet the requirements of Kansas City Code Section 56-803. Incomplete applications Registrations will only be approved when the application is complete. Registrations will be granted to complete applications on a first come first served basis. Previously permitted short term rentals will take precedence when considering density requirements.

After selecting "Permits," there will be a long list that will populate. Scroll down and search for "Short-Term Rental."

You could also hold "CTRL" key and type "F" key to quickly navigate through the page to find specific topics. Typing CTRL F (or control find) would populate a small search box on the top right (see red arrow). Type the topic you are searching for into the search box and the search function will highlight all the topics related to your key word/phrase (see red circle).
