Prop

There are several different types of IDs that you can assign to your property. These IDs to help you cross-reference your property in any other systems you may be using in addition to Portfolio Manager.

Portfolio Manager Property ID

Your Portfolio Manager Property ID was assigned when your property was entered into Portfolio Manager and identifies your property to EPA.

Portfolio Manager Property ID: 4472735

Your Portfolio Manager Property ID

Your Portfolio Manager Property ID is set by EPA and unique to your property. Use this number when communicating with EPA about any questions you have about this property.

Custom IDs

You can add up to three custom IDs as long as they have different names. Only people who have access to this property data will be able to see these custom IDs.

Custom IDs

The Custom IDs are for you to use as you wish. In addition to your Portfolio Manager Property ID, you may have internal tracking numbers you use in your organization that you want to cross-reference to facilitate reporting. Only people who have access to this property data will be able to see these custom IDs.

Standard IDs

Standard IDs are those typically used as part of a data request by an organization (such as a State or local government, or LEED). If you know your property is going to be part of a data request, you may need to select and specify the relevant ID here.
